## Feedbro

Añadimos un nuevo feed:

Donde copiaremos la url de nuestra RSS del que queremos obtener noticias.

Guardamos y ya se nos agregara un canal donde poder ver lo que hemos creado,

Feed URL	<input type="text" value="http://192.168.2.119/ud03/RSS.xml"/>	<input type="button" value="Load"/>
Title	<input type="text" value="Radio Salix: IES los Sauces"/>	
Latest entry posted	<input type="text" value="1 week"/>	
Status	<input type="text" value="OK"/>	
Maximum entries to save	<input type="text" value="default"/>	
Feed entry content	<input type="text" value="As is - defined by the feed"/>	
Scan interval	<input type="text" value="default"/> <input type="text" value="minutes"/>	
Folder	<input type="text" value="Root"/>	
Proxy	<input type="text" value="None"/>	
Username	<input type="text"/>	
Password	<input type="text"/>	
<input type="button" value="Cancel"/> <input type="button" value="Preview"/> <input type="button" value="Save"/>		

Lo que vemos:

The screenshot shows the Feedbro browser extension interface. On the left, there's a sidebar with a list of feeds: "Resumen BOCyL, Legislación Educat...", "Últimas noticias | EL PAÍS", "Radio Salix: IES los Sauces", and "Practica 03\_1". The main area displays a detailed view of the "Practica 03\_1" feed, showing two entries: "Ejercicio 11" and "Ejercicio 13". Each entry includes a title, a description, and a date. Below the entries, there's a section titled "NOTICIAS" with sub-sections for "LOCALES", "INTERNACIONALES", and "NACIONALES". Each sub-section contains a grid of news items with images and titles.
